HASSLE-FREE PARKING IN THE CITY THAT NEVER SLEEPS WITH THE MOST COMPREHENSIVE GUIDE AVAILABLE

PARK IT! NYC 2007 Complete Guide to Parking Garages

Mention parking to a New Yorker and you're likely to hear tales of indecipherable street-parking signage ("Can I park here?"), broken meters, construction site barricades ("My usual spot has been occupied by a 50-foot crane for the past week."), confusion about parking regulations, matinees/shows almost missed, and the dreaded parking ticket ("Oh, why didn't I park in a garage!"). Let's face it, finding a parking spot in Manhattan can be time consuming, arduous and downright frustrating ...unless you happen to have a copy of **PARK IT! NYC 2007** (Park It! Guides/January 2007/\$13.95).

This brand-new book is the most comprehensive guide available to the more than 1,110 off-street parking garages and outdoor lots in Manhattan. Chock-full of useful information, it's distinctive color and visual effects design approach makes it extremely easy to use. A multi-color page bordering system conveniently identifies the neighborhood and the 24 full-color maps clearly show each garage and its entrances and exits.

Each listing includes the exact location, hourly rates, special rates (morning, evening, weekend, event), surcharges, hours of operation, number of spaces, credit cards taken, clearance height, discounts, if elevators are used to transport cars, if vans are allowed, steepness and length of the driveway, signage visibility, and other valuable information. Innovative symbols identify which garages accept credit cards, allow reservations, take oversize vehicles, or are noted for their 'friendliness.'

Nearly ten pages of 'Hints & Tips' [SEE ATTACHED] reveal inside information on critical topics including how to choose a garage, tipping, understanding the rates, and making a complaint. In the course of her research, author Margot Tohn visited each garage *twice* and the information found in her book will enable regular and occasional drivers to **save money** (discover the lowest rate for parking), **save time** (drive straight to the garage), and **arrive on schedule** (plan their parking ahead of time.)
