Valentine's Day is just around the snowy corner, so we thought we'd float a few suggestions for gift-giving (books, natch) for the special man in your life.

To round out our Valentine's Day list of suggested books, here's a handy guide to those of you who drive into the city and then drive...and drive around, looking for a parking space. Tall and skinny and a perfect fit for the glove compartment, here's **Park It! NYC: Complete Guide to Parkign Garages** by Margot Tohn (Park IT! Guides, \$13.95). Maps, cross-street finder, hourly rates, clearance height, how much to tip and the skinny on the more than 1,100 garages (and 104,000 parking spaces!) and lots in Manhattan. "Learn from an insider who has visited each garage twice."
